

About Us

Changing Lives—Achieving Dreams

Founded by highly qualified and experienced industry and academic professionals, having work experience throughout the country and various parts of Europe & UK, EduQuer is a dynamic training solutions provider having electric ideas for both institutional partners as well as the corporate world pan India. We

strongly believe in personality perfection and professional excellence, which would be the key differentiators for individuals in their successful career, and hence their lives.

EduQuer's key strength lies in the expertise and rich experience of its core team in Engineering, Management and Academics. We provide a mix of quality trainings blended with a brisk of what is required in today's technical corporate environment.

Make a right move in your
CAREER

EduQuer

EduQuer's Vision

“To be the preferred institutional and corporate training partner for esteemed organizations by collaboratively transforming personality potential into successful careers.”

Our Belief

No formal education is complete without the right attitude and personality. We strongly believe in the comprehensive personality grooming of individuals, which would help them achieve true success in their lives.

We help our institutional and corporate partners to achieve this goal by our comprehensive training programs, which act exactly in the same way as “Customer Delight” does in selling. It is a form of an extra and attractive topping which creates temptation to buy the idea.

We assist our institutional partners in:

- Curriculum Design & Delivery
- Student Intake & Training
- Academia-Industry Interface
- Technical Trainings & Seminars
- Faculty Development Programs

At the same time, we also have highly effective solutions for corporate world as well, to carve out Valuable Assets from their existing & new human resources.

EduQuer's Mission

“EduQuer Training Solutions will be the training partner of choice by imparting that extra bit of skills required, delivered by highly qualified professionals having a rich industry – academia experience and focusing on complete personality enhancement, team work, flexibility and value creation.”

Our Methodology

By keeping in mind a significant gap between what the corporate world demands and what the academia provides, EduQuer helps the students in bridging this gap by improving their Knowledge, Skills, Attitude, Personality and Confidence. We help our institutional & corporate clients in achieving excellence through our learning and application centric training modules. EduQuer strongly believes in learning through practice. Hence we have developed our adaptive learning modules using interactive and participative techniques including:

- Interactive Classroom Sessions
- Case Studies
- Psychometric Aptitude Tests
- Role Plays / Mingles & Information Gap Activities
- Games/ Fillers/ Warmers
- Drilling Techniques
- Individual Assessments
- Correcting Learner's Errors
- Motivation & Personalization
- Free & Controlled Practical Activities
